

In order to protect the public

1. We believe you are organising a gathering that is/might be over 6 persons.
2. Are you aware that participation in one is an offence under the current covid restrictions?
3. Are you aware that holding or being involved in holding one is also an offence?
4. Do you believe you come under one of the exemptions to the general prohibition on gatherings over 6 persons?
5. If so, which exemption?
6. If it is on the basis that you are a business, charity, political body etc, have you done a risk assessment?
7. Can we see it please? We cannot check it for you or approve it but we need to satisfy ourselves that it is in existence and see what it covers.
